Projects

FFC Pitching Talent - Event Website
March 2017 – March 2017

FFC Pitching Talent is a project created, planned and promoted by FEP First Connection, which encompasses, in an integrated and versatile way, teaching / training aspects and an educational interaction with the business community.

Notorious FEUP Projects

- A two-user chess game developed in C for the Minix 3.1.8 operating system.
- A simple SuperSlimeSoccer copycat game made using libGDX (Java game development framework).
- Modeling a popular chess variant, Racing Kings, using Prolog, JavaScript and WebGL technologies.
- A web application where users can store and manage to-do lists.
